<b>G.</b>	<b>Highlights for the last 12-months and Initiatives for the next 12-month</b>
1.	Provide your 3 top highlights for the past 12-months (challenges, goals, achievements etc.)

We introduced AutoInfo functionality where an interested party can search on the license plate number and the first 6 digits of the serial number or, if the plate number is not available, they can search on the full serial number. This will produce a report which will report if the vehicle has been listed as stolen, the odometer reading at the last inspection and if there are any liens on the vehicle, among other things.

2.	Provide your top 3 initiatives for the next 12-months

The Uniform Law Conference of Canada has proposed that we implement a Uniform Securities Transfer Act which will affect our Personal Property Securities Act and the Business Corporations Act in each of the Provinces and Territories. Our legislative drafters are in the process of drafting the required changes. They will be working together to keep our legislation as harmonized as possible.

We are looking at changes to the enterprise name search functionality. In particular, we are looking at reducing the list of common business terms (noise words).

We are redesigning the PPR website to be more user friendly.
