

Corinne Holland joined NIC's South Carolina (South Carolina Interactive) team in 2005. In the General Manager role she enjoys setting the strategic direction for the portal and working everyday with the SCI team to provide quality, efficient, and cost-effective ways to fulfill SCI's critical role of building and maintaining significant digital government services throughout the state of South Carolina. Since 2005, South Carolina Interactive has implemented more than 1400 services for our SC government partners.

Corinne received her BA in Management and BS International Studies from the University of Missouri and her IMBA from the University of South Carolina Darla Moore School of Business. Corinne has her ITIL Foundation certificate in Service Management and is also a certified Project Management Professional.
