	<p>In Mississippi, notaries public fall under the regulation of our Business Services Division. We have IPEN legislation taking effect July 1, 2021. We are working on an approved vendor list for platforms providing IPEN services. If you also regulate notaries, and your state already has in-person e-notary (but not remote notary or remote online notary), we would welcome any information you have about how you vet/select/approve IPEN vendors or platforms in your state, especially if you have a formal application process for vendors wishing to provide their services to notaries in your state. I wondered if any states required a bond from its approved vendors. You are welcome to respond to me (and Sarah Mann, an attorney from my office cc'd) directly.</p>
