	Ohio currently uses ComCash as our point of sale system for our walk in center, but it has significant limitations so we are looking into new options. In my review online Clover looked like a good system to consider, but I am looking for additional systems as well. Do any of you use a point of sale system that you would recommend?

Indiana	We use Value Payment System for our point of sales and they are also our payment vendor. I think our point of sales is fairly basic, but my guess is that they would have other options. I have good contacts for them if you are interested.
