Connecticut	We are tracking some of your questions here. https://public.tableau.com/profile/connecticut.state.data.center#/vizhome/ConnecticutNewBusinessRegistrations/SOTS In general, 2020 followed the decade long trend of increased LLC filings. With the big exception being that we saw a large dip in March-May 2020, but a big rebound in the summer.

Indiana	<p>* In FY 2020, Indiana did see a slight dip. We saw a .57% decline in revenue and less than 4% decline in filing volume when compared to FY 2019. However, early numbers indicate that FY 2021 is on the path to surpass both FY 2020 and FY 2019 in terms of volume and revenue.</p>	<p>The downturn was slight and quickly rebounded by July 2020.</p>	<p>We stopped sending reminders to pay Business Entity Reports and did not change any businesses statuses to Past Due, Pending Administratively Dissolved, or Administratively Dissolved from March 2020 to August 2020. Since August, we have been working month by month to clean up the backlog.</p>	<p>* In FY 2020, we saw the following notable trends when compared to FY 2019.</p> <ul style="list-style-type: none"> * A 35% increase in Reinstatement filings. * A 6.3% increase in formation filings. * A 12.8% decrease in Business Entity Report filings.

Louisiana	<p>As with Connecticut, Louisiana has continued on a trend of increased filings. The pandemic overall, has not hurt our numbers or revenue too bad in the Commercial Division.</p>	<p>There was a slight drop off at first, as we did allow ?grace periods? on the deadlines for annual report filings, revocations, partnership renewals, etc? But once the ?grace periods? were over, all got back on track.</p>	<p>The length of the ?grace periods? we provided, were in part based on our Governor?s orders concerning extensions on administrative filings.</p>	<p>Presently, all our numbers are up and it covers all types of filings.</p>

North Carolina	Just after the office closed March 20, 2020, we did see a financial dip within the reports, but that was due to the fact we hadn't set up teleworking sites 100% and our turn-around for examination suffered.	The filings for annual reports, reinstatements and creation documents for both Business Corporation and LLC were higher than in any preceding year. The creation filings continue to run at a higher demand than previous years.	North Carolina did not extend filing due dates for annual reports, but we did educate the public in regard to the definition of delinquent, which statutorily is 60 days after the due date.

Hi everyone -

I'm curious what states are seeing in their filing numbers and would appreciate your replies to the following questions:

- * What impact did the pandemic have on your revenue last fiscal year (FY2020)?
- * Are you seeing recovery this fiscal year?
- * Did you provide extensions and late fee waivers on annual reports because of the pandemic?
- * Have your overall filing numbers decreased or increased? And, in what particular area - formations, mergers, dissolutions?

Thank you in advance for your feedback!
