Indiana	<p>The data is purchased and downloaded through the user's INBiz account. After purchasing, the file is available through their data portal. The user downloads a zipped file that contains three text files. Below is a snip of the three text files. [cid:image001.png@01D7B901.352B1240] There is only one option, which is a full download. This includes the data on all trademarks registered with the SOS. It is updated monthly. The file costs \$500.00.</p>	<p>No. We do not include the specimen attachments that are part of the application/renew process or any images we have from the legacy data. We used to include the images in bulk data requests, but due to the development costs associated with this, the increased difficulty of delivery due to file size, and the low number of requests, we no longer offer images.</p>	<p>In 2021, we there were 11 purchases of TM Bulk Data. In 2020, it was 12 purchases. We did not develop monthly updates like we have for BE and UCC due to the limited interest.</p>
Iowa	<p>Our office handle trademark registrations. Trademark data is kept in our business registry database, and we have many subscribers of business entity data. Data is exported in tab delimited text files and downloaded by the customer through a web portal.</p>	<p>We have a trademark only data set. It's available for \$50, and is rarely purchased. This data set is updated monthly. Data is exported into a tab delimited text file and is emailed to customers who order it.</p>	<p>We do not sell an image set for trademarks, though individuals could order them (for a fee) or pull them down from our web site.</p>

Louisiana	NO	<p>YES. In the past, we have had "bulk" customers that ordered images of just the cert evidence, some ordered just the document and one that ordered both cert and document.</p> <p>The customer we presently sell to, orders copies of ONLY the Certificates issued at time of filing. Images are forwarded in an email link. We send once a month at 1.00/page.</p>	The average total is @ 500-600 month.
